

Trusting Closer

Many mysteries do those dark eyes hold
Sweet sugared kisses, burning desires unfold
Secrets hidden in depths within
Divulged as truth develops....
and trust sets in
Change brought on by internal reflection
Strengthens the bond;
budding, blossoming, developing...
Who'd have imagines a better pair
with complimentary wills, style, and flair
Undefined by society
requiring no validation
Self notoriety
deeply driven by motivation
Destiny's tale remains untold
The pair's meeting - fate? History is questioned as life unrolls
The basic tenet of one day at a time
Craving simplicity, not wanting to complicate yet with reservations to define
The memory of voice, the hold of the eyes, and stray touch
Yields the heat of passion, bonds of silence, an unspoken commitment stemming
beyond a natural lust.
